SHOW-STOPPING EDITIONS FROM **THE LEGENDARY** STREET ARTIST

MR **BRAINWASH**

Mr Brainwash
New Horizons
Paper Edition of 80
Artwork Size: 30 x 22"
£2,495

Mr Brainwash creates larger-than-life celebrations of culture, humour and imagination, and these two images reinforce the message of optimism that he has made it his mission to share. His witty and irreverent juxtapositions use his 'tags' - recurring characters including Charlie Chaplin, objects such as flying balloons, and iconic themes and designs such as the Union Flag to play with our expectations and create images of positivity, nostalgia and fun.

Multi-layered, both literally and metaphorically, Mr Brainwash's work represents a huge melting pot of influences and ideas and is an orchestrated collision of street art and pop art that has challenged cultural norms and made him a legend. Described by Shepard Fairey as "profound, provocative and inspirational" and by Banksy as "a phenomenon", this subversive and playful visionary has entered the elite list of the world's top living artists based on auction sales of nearly 2.5million. With collaborators and collectors including The Obamas, Madonna, the Beckhams, Pele and Banksy, his legendary rise has been the largest ever seen in the Art Market.

MUCH ANTICIPATED AND **SPARKLING NEW EDITIONS** FROM

DUNCAN **MACGREGOR**

Duncan MacGregor
Vanilla Sailing
Original Painting on Board
Artwork Size: 12 X 24"
£2,300

DMac's paintings have established his international reputation as one of the finest artists of his generation. His innovative and sophisticated technique combines with some of the most beautiful and vivid colours on the spectrum to create powerful artworks for the 21st century. This spring we are delighted to unveil Moonlight Mirage I&II, his much anticipated new limited editions - sweeping and painterly images show Duncan at his boldest and best, and the sharp contrasts and strong colours will make a stunning impact in any interior.

"I feel very strongly that whatever my work means to me is deeply personal, and by extension, this is also true of the people who are looking at it. Everyone has their own response to art, and when I meet collectors they often surprise me when they tell me what they see in one of my paintings. I don't believe in explaining my work or guiding people around it, as I think it is what you see that is important – and often, the more you look, the more you see."
